

Introduction

Hello!

Bilkish Fitria Febryani

you can call me '**Bilkish**'

I currently work at **Perum Peruri**, one of Indonesia's state-owned enterprises (BUMN), responsible for printing money and official documents. I have been working as a **Procurement Preparation Staff** for over **two years**, handling the procurement process for technical and general goods.

Experience and Connection to Accessibility

Before joining Peruri, I **interned at ITDP Indonesia for three months**, an organization focused on sustainable and inclusive transportation. I graduated from **Urban and Regional Planning at Universitas Brawijaya**, where my studies covered various aspects, such as **infrastructure, transportation, and other related fields**.

During my **internship at ITDP**, I gained valuable insights into **inclusive and accessible transportation**, which was not widely discussed in my studies. Although my current job is not directly related to my academic background, I enjoy **learning new things** and contributing to creating a **more inclusive environment for everyone**.

THANK YOU
